About Conference

Association of Pharmaceutical Research is honored to organize 10th World Conference on Pharmaceutical Science and Drug Manufacturing which will be held on 7th & 8th December 2022 at Dubai, UAE. The theme of the conference is 'An integrative and holistic approach towards pharma science'. Pharmaceutical industry has a significant role in helping patients to get better through their medication. It helps in discovering and developing new drugs which saves many lives. Many disruptive technologies and emerging trends is going to cause a great impact to the pharmaceutical industry. The Pharmaceutical sector has to embrace these new technologies in order to provide a better health in future and also to focus on digital health. Considering this, APR brings together all the professionals, scientists, doctors, research scholars from pharmaceutical sector to share their thoughts, research works and also to discuss the recent technologies and trends.

About APR

Association of Pharmaceutical Research is one of the world's leading professional association caring for people. APR is a non-profitable professional association meant for research and development in the field of pharmaceutical science & technology. APR is an international forum for researchers, academicians, doctors, and practitioners for sharing knowledge and innovation in the field of pharmaceutical science & technology. APR aims to bring together worldwide researchers and professionals, encourage intellectual development and providing opportunities for networking and collaboration.

APR meets with its objectives through academic networking, meetings, conferences, projects, research publications, academic awards, and scholarships. APR strives to enrich from its diverse group of advisory members.

APR brings together pharmacologists, life scientists, pharmaceutical practitioners and researchers to advance the application of pharmaceutical science & technology to the public. APR delivers access to its members the industry's most essential technical information by organizing conferences, workshops, annual convention meeting and provides networking opportunities both locally and globally. Members have the ability to stay current in their chosen profession, connect with peers, and invest in their future.

About Venue

Dubai is the largest and most populous city in United Arab Emirates. It aims to be the business hub of Western Asia. It is a city with good weather condition that welcomes visitors throughout the year. Dubai is one of the most beautiful and unique cities of the world. The uniqueness comes from the modern landscapes and architecture of the buildings. Dubai is best known for its tourism, sightseeing attractions, and reputation for world class shopping. World's largest building, The Burj Khalifa, the Palm shaped artificial island, museums, adventure parks, the Dubai Mall, Desert safari, Miracle Garden, Global Village, Dubai frame, Sky diving are some of the tourist's attraction spots

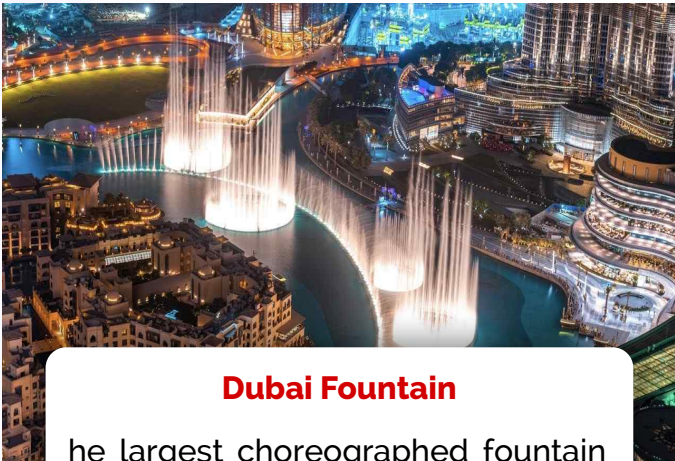

Dubai Opera House

Designed to resemble a dhow, Dubai Opera House can seat up to 2,000 patrons. It hosts a variety of events like theatrical shows, opera performances, ballet recitals, concerts and exhibitions.

Palm Jumeirah

A man-made archipelago, Palm Jumeirah is one of the three planned Palm Islands and the newest in the list of attractions that Dubai has to offer. The island offers tourists a host of activities to indulge in. From up-market shopping malls to hotels to luxury beach resorts, Palm Jumeirah Islands have it all. It is, indeed, just another example of Dubai's uninhibited fantasies put perfectly in perspective.

Dubai Fountain

The largest choreographed fountain system in the world, The Dubai Fountain on Burj Khalifa Lake shoots water up to 152 metres, and is illuminated by 6,600 lights.

Burj Khalifa

At over 828 metres, Burj Khalifa is the tallest building in the world with an observation deck that offers panoramic city, desert and ocean views.

Sessions and Track

- * Applied Pharmacology
- * Clinical Pharmacology
- * Pharmacogenomics
- * Nanotechnology in Pharmaceuticals
- * Current therapeutic Drugs
- * Pharmacokinetics
- * Pharmacodynamics
- * Drug Discovery and Development
- * Pharmacognosy
- * Toxicological Research
- * Toxicology and it's Types
- * Toxicogenomics
- * Pharmaceutical Biotechnology

Registration

Registration Category	INR (National)	USD (International)
Students/Researcher	INR 1500	USD 125
Faculty/Industry member	INR 2500	USD 150
Listeners	INR 1250	USD 79
Virtual	INR 999	USD 50

REGISTER NOW
